Furrow Honey

Fabric

Furrow is a fine herringbone pattern in warm golden yellow. Its simplicity means it can be used in place of a plain fabric to add texture and interest to a scheme. Perfect for mixing with the other more intricate designs of the [Garden Path](#) collection.

Printed on the edge of the Lake District using ECOFAST technology, a digital pigment printing method which uses 50% less water than traditional techniques, ensures it is also kinder on our planet.
