

ANDREW MARTIN

Gypsum Lava

Outdoor Fabric

This small diamond shaped print is inspired by the angular shaped natural mineral of the same name. The rough lines of the ikat style design imitate the jagged edges of the stone giving the fabric an organic feel, making it a perfect accompaniment to your outside space.

This fabric is part of our collection 'The Great Outdoors', it has a shower resistant finish which is anti-mould, anti-mildew and anti-microbial. Each fabric has been printed using EcoFast digital pigment printing methods, which use 50% less water than traditional print methods. As with most outdoor textiles, they prefer to be stored inside when they aren't being used, or during periods of wet, cold or damp weather.

This fabric can be FR treated to BS5852 Match Upholstery for indoor use.

Specification

Product Code:	TGOGYOU LAV
Width:	137 (cm)
Composition:	100% Polyester
Sold By:	Metre
Pattern Repeat (Vertical):	45.7 (cm)
Pattern Repeat (Horizontal):	68.6 (cm)
