Nile Stone

Fabric

An elegant fishtail motif on a stone grey linen backcloth. With both a rustic feel and a hint of French sophistication, the stripe of Nile weighs a cool significance from its namesake. It conjures images of the faraway plains and civilisations through which the river has cascaded, as well as being the setting for religious stories, existing politics and voyagers' exotic exploration.

Printed on the edge of the Lake District using ECOFAST technology, a digital pigment printing method which uses 50% less water than traditional techniques, ensures it is also kinder on our planet.
