

# ANDREW MARTIN

## *Stag Glacier*

### Fabric

Stag is a tribal inspired motif which harks back to the Native American tribes who originally inhabited Colorado's intrepid landscape. In off white, a combination of zig zag lines and diamond motifs sit against a duck egg blue background, putting a contemporary spin on these traditional feeling designs.

Printed on the edge of the Lake District using ECOFAST technology, a digital pigment printing method which uses 50% less water than traditional techniques, ensures it is also kinder on our planet.
