A Frame Console Table

Console Table

A-frame oak console table

Inspired by our founder Tim Oulton's beloved A-frame glass acrylic desk used in his family home in France, reinterpreted in one of our favourite materials - reclaimed timber. Lending a strong architectural presence with its crisp angles, the A-Frame oak console table is handcrafted from century-old oak salvaged from traditional Chinese homes and constructed by hand with durable mortise and tenon joints. The timber has an authentically distressed patina, rife with the character that only weathering and age can bring. The humble trestle table shape has a rich history of use from schools to science labs to decorating tables to banqueting tables, with its simplicity of design enduring through the years.
