Wall Light

*Sculptural sphere wall light with nickel backplate*

Mina wall light by Sean Lavin features an elegant sphere of pure optic crystal. This beautiful resting orb is laser-etched and further illuminated by a powerful firing LED hidden within the socket. With an outward bending backplate in polished nickel to angle the illumination, the sconce provides general illumination in the surrounding space. Due to its contemporary and artistic design, Mina can be used in a range of lighting applications alongside coordinating Mina table lamp.
