### Outdoor Cushion

This subtle two tone weave evokes a relaxed and welcoming feel, perfect for outdoor living during warm summer days. Finished off with smart velvet piping, the soft natural shade is the perfect compliment to furniture in neutral shades and organic materials.

These outdoor cushions are designed using a fabric woven with non absorbant yarns, meaning they are stain and water resistant and have anti mildew, anti mould and antimicrobial properties. Their high colour fastness means they won't fade in the sun, and inside there is an FR polyester outdoor fibre pad. We do recommend however, that these scatter cushions are looked after carefully and are best used in dry weather. As with most outdoor textiles, they prefer to be stored inside when they aren't being used, or during periods of wet, cold or damp weather.
