## *Glacier Powder*

### Cushion

Glacier Powder is a strong, graphic geometric cushion in icy blue and beige with contrast piping in smart, textured velvet, **Mossop Ice**. A supple linen blend, handmade in the UK and filled with sustainably sourced duck feather and down. Join us on a journey to the maze-like streets of the Middle East.

**Glacier Powder** fabric used in this design is printed on the edge of the Lake District using ECOFAST technology, a digital pigment printing method which uses 50% less water than traditional techniques.

The geometric nature of this design does have a slight pattern variation, and as a result it is not geometrically perfect.
