

ANDREW MARTIN

Barrington Aqua

Outdoor Fabric

This sophisticated outdoor fabric has a relaxed and welcoming feel with a flash of colour in the weft to enhance its structured appearance. Perfect for walled city gardens or expansive country lawns Barrington is ideal for outdoor living.

The fabric is woven using solution dyed polypropylene which has fantastic colourfastness properties. This yarn can be easily recycled at the end of its life to make new fabrics, and due to almost zero water used in its production, this fabric fits the environmental needs of us all.

This fabric can be FR treated to BS5852 Match Upholstery for indoor use.

Specification
