Kongo Stone

Fabric

In contemporary stone grey, Kongo shows a linear African mud cloth motif, combining primitive Malian style with the neutral tones of European interiors. On a rustic linen blend this fabric feels earthy, bringing a relaxed, handcrafted feel and enough exoticism to transport you to far flung travels.

Printed on the edge of the Lake District using ECOFAST technology, a digital pigment printing method which uses 50% less water than traditional techniques, ensures it is also kinder on our planet.
