Tiered chandelier in bronze with crackle glass

The highlight of this stunning double-tiered chandelier is designer Kelly Wearstler's signature fractured glass; carefully cast with a textured finish, it's been used to create the modern tubular surrounds housing the chandelier's many light sources.

Sleek, angled arms radiate from the chandelier's central spoke, which is elongated beneath the tiers to remarkably contemporary effect. The structure is exquisitely crafted in bronze, and available in your choice of an antique burnished brass or bronze finish.
